SOME FEATURES OF THE SENATE TARIFF BILL.

Scheme to Play on the Old Pensioners-A Convict Labor Contract-Congress.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

GOOD FOR CALIFORNIA. Our Representatives Pleased with th

Senate Tariff Bill.

Copyright, 1888, by the California Associated Press.1 Washington, September 26th .- It was a busy day in the tariff committee-room of the Senate to-day. All the members of the committee, except Senator Brock, were present during nearly the entire day. The clerk read the bill section by section while members of the Senate made copious ex-

tracts. As on yesterday, the Senators were all requested to leave their copies of the oill in the custody of the clerk. Senator Allison said it was the earnes wish of the committee to prevent the bill from getting into public prints until the Democrats had submitted their minority report. The injunction of secrecy, he said, had not been removed, nor was it apt to be

The fruit schedule has been very carefully prepared, and meets with the hearty recommendation of all Republican repre-sentatives from the Pacific coast. The hard fight made in the House over the reduction on raisins will be remembered. In the heat of debate even the Democratic Congressmen from that State did not hesitate to say that such action would seriously endanger any chance the party might have there. The Republican bill will not reduce the duty, but will allow it to remain where it now is, at two cents per pound. Figs and prunes are left at one cent, while quick-silver is placed at six cents per pound, in-stead of ten per cent. ad valorem. This latter is quite an increase on the present rate, and will be of benefit also by putting a stop to many frauds in the importation of this mineral.

The Republicans from the slope are delighted with the bill, because they say it will bear the most rigid comparison with the measure offered by the Democrats.

CONVICT LABOR.

A Tennessee Contract Which Cleveland

Will Be Asked to Explain. [Copyright, 1888, by the California Associated Press. Washington, September 26th.—Senator Harris, of Tennessee is having quite a lively time of it down in his district over the nomination of ex-Commissioner of Indian Affairs Atkins, as his rival for Senatorial honors, and is making things hot. He has a backing of plenty of money, and that is a powerful factor in Tennessee politics. An interesting feature of this little fight within the fold is the power behind Mr. Atkins. The boodle which is being so freely used in his behalf is all coming from that source, and that is none other than the contractor for convict labor at the Tennesse State Prison. His name is Morrow, and he is the same man who was given the contract for carrying supplies to the Indians. Mr. Atkins gave him this contract. It calls constant use of 675 teams, and is one of the best snaps that has outlived the | Chicago Captures the Last Game on the old star route days.

Senator Jones was speaking of this mata man employing convict labor had Presi dent Cleveland signed the bill introduced by the Republicans and which passed both Houses during the last session. The bill in estion prohibited the employment of nvict labor on Government work. Senar Jones has determined to propose a res lution calling on President Cleveland to furnish Congress with all the data relating to the awarding of this contract. There nay be some very interesting news in it. Senator Harris does not like Atkins' canvass against him, but cannot afford to make

ANYTHING TO MAKE VOTES. An Alleged Democratic Plan to Work the Invalid Pensioners.

Copyright, 1888, by the California Associated Press. Washington, September 26th.—During the past two months six of the most expert clerks in the office of the Third Auditor of the Treasury have been at work classifying the list of male invalid pensions, giving the date of issue of each pension, with the name of the pensioner, the rate of pension per month, and the town and county addresses. Only male pensioners are in-cluded in this list, and the only lists made up have been of pensioners in States which are practically doubtful, except Kentucky. Lists have been made for California, New York and New Jersey, and the clerks are now completing the list of pensioners for

Indiana. It is stated that copies of the list of pen-ioners in each county are to be sent to the Democratic County Committees and complete lists to the State committees. The object in doing this work is to give the political managers in Indiana an opportunity to make advance on the pensioners through the forty or fifty special agents now in each of the doubtful States and through county and State Central Committees.

never dreamed of rivaling in wealth the medicine kings of the country. But various rumors having been floating around to the effect that he had struck it big, an Examiner reporter was detaited to unearth the cause, and after much difficulty unraveled the following story:

It seems that about seven years ago an English physician, a great student of botany, located for a brief season in this city. His practice was not extensive, and yet the few cases of a general nature that came to him attracted no little attention. His greatest success seemed to be in the treatment of liver and kidney disorders, and vitiated blood. In fact, his ability to cope with these common complaints was little short of the marvelous. He seemed almost infallible, and his quiet, modest methods and his well-kept secret was as much a mystery as himself. After his departure, about a year later, Mr. Joy determined to fathom the secret, and, copying all the prescriptions he had filled for the erratic doctor, he began a systematic analysis. In his examination he discovered running all through the prescriptions for liver and kidney troubles, vitiated blood and stomach disorders, a couple of vegetable extracts indigenous to Califernia, so simple and so well known under homely, every-day names to every school boy as to entirely dissipate the suspicion that they were the active principles involved. So certain, however, was Mr. Joy that he had discovered the secret that he embodied the new elements in a preparation of Sarsaparilla to disguise the taste, and put it before his customers under the modest name of Joy's Vegetable Sarsaparilla. Immediately the same marvelous stories came back of its attonishing effects, and the mystery was solved, and the talk it has created has already caused it to step into prominence, and orders pour in daily from all over the coast. People seem to be taking it and writing and talking about it throughouthe State. And thus another California incustry leaps into exist-nec.—S. F. Examiner.

reason, yet the law does make a difference between a Presidential election and other general

But under the Constitution, if a person has all the pre-requisites of an elector on the thirtieth day prior to any election he is entitled to vote. Therefore he has all of the thirtieth day to register. Why, therefore, should he not have all of the first Monday of October in which to register? I conclude that he has, and this reason is supplemented by another, that the law should be construed liberally in respect to the right of suffrage, which is the main pillar of our free institutions.

CHANGED DAILY FOR HALE BROS. & CO .- SEPTEMBER 27, 1888.

IN REGARD TO

Wire-Buckle Suspenders.

A WHOLE WINDOWFUL OF SUSPENDERS ON DISPLAY TO-DAY show our latest buy in that line. It will be noticed that the distinguishing feature of the new Suspenders is the WIRE BUCKLE, a device for which the manufacturer claims many points of superiority. We bought a complete line of these goods, not only because they were highly recommended, but because we propose that the BEST, no matter in what line of Merchandise it may be, shall be found in our Stores. As in everything new which is placed before the public, there is a difference of opinion as to its merits. The manufacturers' claims for the Buckle are:

1. It will last two years. 2. It and its attachments will not ent the Clothing, there being no projecting hooks.

3. It will not slip, a lever device preventing it.

4. It will not tear the web, there being no long points.

The opponents of the new invention say that there is a monopoly on the new Buckle, and there being no competition, the makers are enabled to ask and obtain a higher price for their suspenders than they would if they used the old Buckle. It is also asserted that the Buckle is liable to slit.

Experience can best determine the merits or demerits of these Suspenders. If they result satisfactorily we shall hereafter keep them in stock; if not, we shall do away with them altogether. The superior advantages we possess for buying all kinds of goods is illustrated in the present instance, whereby we are enabled to sell these Suspenders TWENTY PER CENT. UNDER SCHEDULE PRICES. For instance, the Wire-Buckle Suspenders which dealers are selling for 50 cents can be bought of us for 38 cents. The annexed table shows the difference on every line:

A GRAND DANCE. C. W. Jeffords and Miss Lizzie F. Gilkey, of this city, were united in marriage at half-past 1 o'clock yesterday afternoon at the residence of the bride's parents, No. 1726 K street. Rev. H. H. Rice, of Oakland, came up for the purpose of officiating at the wedding. Miss C. May Jeffords, and the Indians appointed vester-day as the time for their grand pow-wow. Gilkey, brother of the bride, acted as bridesmaid and groomsman. Only the relatives and intimate friends of the contracting parties were present, but a large number of useful and valuable presents were received. Mr. and Mrs. Jeffords left on the 5:10 p. m. train for Sonora, to visit the parents of the groom. They will go thence to San Francisco, and returning to this city in about a fortnight, will reside here in the future.

Will Probably Settle.

The cattle were slaughtered and divided up between the different camps pro-rats. Feasting commenced in the morning and lasted throughout the day. Headquarters for Wraps.

An elegant display of Ladies' and Children's Wraps is made to-day in the large showwindow. We put it against anything ever shown

by ourselves or anyone else in Sacramento. Nearly every garment represents some new and bright idea in shape, trimming, etc. It is a display from which much may be learned.

We labor under the disadvantage of

being greatly crowded for room. The garments in the window form but a fraction of those in the selling room, and those in the selling room are but a small part of the new garments packed away and in the reserve rooms. The stock as a whole exceeds by many thousands of dollars all former collections.

Skilled labor is constantly employed to make free of charge any slight alterations necessary to the perfect fit of our garments, and in this, as in all other departments of the house, no pains is spared in trying to have everything purchased from us give the highest satisfaction.

ABSOLUTELY PURE. For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Daking Powder may be eaten hot without distressing results to the most delicate

digestive organs. It will keep in any climate without deterioration. Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many
